Summary

Motivated MERN Stack Developer with hands-on experience in MongoDB, Express.js, React.js, and Node.js. Completed 3-month intensive training and built multiple real-world projects. Strong understanding of REST APIs, authentication, and responsive UI development. Seeking an internship to apply and enhance my skills in a professional environment.

Experience

MERN Stack Trainee [Institute Name] | 3 Months

Student, Location
2026

- Completed hands-on training in MongoDB, Express.js, React.js, and Node.js
- Built full-stack applications with authentication and REST APIs
- Worked on real-world project implementations

Education

- Education 1, University , Location, Year
- Education 2, Board, Location , Year
- Education 3, University , Location , Year

Skills

- Frontend: React.js, HTML5, CSS3, Tailwind CSS, JavaScript (ES6+)
- Backend: Node.js, Express.js, REST API Development
- Database: MongoDB, Mongoose
- Tools: Git, GitHub, Postman, VS Code
- Concepts: JWT Authentication, MVC Architecture, Responsive Design

Strengths

- Quick learner and adaptable to new technologies
- Strong problem-solving ability
- Good communication and teamwork skills

Achievements

- Successfully built and deployed 3+ full-stack MERN applications
- Completed intensive 3-month MERN Stack Development training
- Implemented authentication systems using JWT and REST APIs
- Continuously learning and improving through hands-on projects

Languages

- JavaScript
- React.js
- Express.js
- Node.js
- MongoDd

Projects

Full Stack E-commerce Web Application

- Developed a full-stack e-commerce platform using MERN stack
- Implemented JWT authentication and protected routes
- Built REST APIs for product, cart, and user management
- Integrated responsive UI using React and Tailwind CSS
- GitHub: [Add Link]

Authentication System with OTP Verification

- Built secure login/register system with OTP verification
- Implemented backend authentication logic using Node.js and Express
- Managed user data with MongoDB and ensured validation

Infinite Scroll User Dashboard

- Developed React-based dashboard with infinite scroll functionality
- Optimized API calls for performance and user experience
- Backend built using Express and MongoDB

MERN Stack Development Training (3 Months) [Institute Name]

- Gained hands-on experience in full-stack development
- Built real-world projects and learned best practices
